

Product Guide

Waterproofing | Gas Protection | Building Chemicals

Solco Building Products are an independent specialist provider of Structural Waterproofing, Gas Protection and Building Chemical products for the Construction and Civil Engineering Industries.

Solco's business strategy hinges on providing excellent independent and impartial advice and support, both in terms of service and technical solutions. We strive to continue to work closely with our customers to develop the right products for the market.

Our Services...

Service Levels

Solco ensure high levels of service and prompt deliveries are achieved. Our flexibility ensures lead times are kept to an absolute minimum, which enables customers to meet tight deadlines and reduce costs.

Technical Advice

Solco provide the highest levels of practical advice from knowledgeable technicians who will give you a cost effective fit for purpose designed solution for your project.

Site Support

Onsite support can be provided to ensure the specification is met and the products are installed in accordance with the manufacturer's recommendations.

Installation

If preferred we can arrange for an experienced team of installers to undertake your work. This can include welded joints for membranes. When Solco products are taken with this service we can offer full PI, Guarantees and Warranties covering both materials and workmanship.

Cad Facilities

Many standard installation details are provided in CAD format for download. We will also assist in the design of any specialist applications.

Integrity Testing

We can arrange all recognised forms of integrity testing to liners for Gas Membranes, Suds Tanks Liners, Waterproof Membranes, Containment Membranes and Pond Liners.

CPD Seminars

Solco's Continuing Professional Development (CPD) seminars are designed to provide critical up-to-date information on the latest building regulations and guidance affecting those in the construction sector. Presented by our highly experienced and qualified technical advisors. We aim to offer key advice and support for architects, engineers or specifiers involved in the specification of structural waterproofing & gas protection systems in the construction & civil engineering industries.

The high demands we set ourselves are also reflected in our relationships with employees, customers and suppliers: our dealings at all levels are characterised by trust, respect and reliability. Solco supply products that meet the following standards:

SOLCO Product Ranges...

SOLCO **SOLSHIELD**
Gas Protection Systems

SOLSHIELD Gas Barrier Membranes offer the complete solution for effective protection against natural and radioactive gases - Radon, Hydrocarbons, Methane & CO2

SOLCO **SOLSEAL**
Liquid Applied Systems

Solseal is a range of liquid applied waterproofing coatings that prevent the passage of water and water vapour into the structure, and form a seamless fully bonded system. These coatings are flexible, durable, abrasion and chemical resistant as well as having gas proofing capabilities.

SOLCO **SOLSHEET**
Waterproofing Systems

Solsheet is a range of self-adhesive sheet membranes, which prevent the passage of water and water vapour. Sheet membranes may be used for basement tanking and damp proofing, as well providing a barrier to gases.

SOLCO **SOLTEX**
Sealants / Foams / Fillers

Soltex is a leading range of moveable joint fillers, sealing strips for joints, airtightness, acoustics and thermal insulation. We work with architects, specifiers, civil engineers and builders to achieve the right solution to any structural detail.

SOLCO **SOLCO**
Bentonite Waterproofing

CETCO Bentonite Waterproofing system is a highly effective membrane designed to prevent the passage of water and water vapour. The system is complimented with a range of ancillary components that provide a complete waterproofing system

SOLCO **SOLCOURSE**
DPC / DPM Systems

A range of BBA Approved, CE Marked High Performance and conventional Damp Proof Courses, Cavity Trays, Damp Proof Membranes, Insulated & Fire Rated DPC's and Cavity Closers. All combined with a wide range of accessories to provide a complete damp proofing system.

SOLCO **SOLCO**
Water Stops

Solco has an extensive range of water activated, self-expanding seals that use a unique active sealing technology. The products expand in contact with water to create an active seal to combat moisture infiltration.

SOLCO **SOLCO**
System Components

Solco supply a range of system components such as tapes, protection boards, DPC accessories and Radon Accessories that complement our Gas and Waterproofing Systems.

SOLCO **SOLDRAIN**
Structural Drainage

Soldrain structural drainage systems are a range of high performance profiled plastic drainage systems designed to control water entering a structure and for the protection of membranes.

SOLCO **SOLCEM**
Building Chemicals

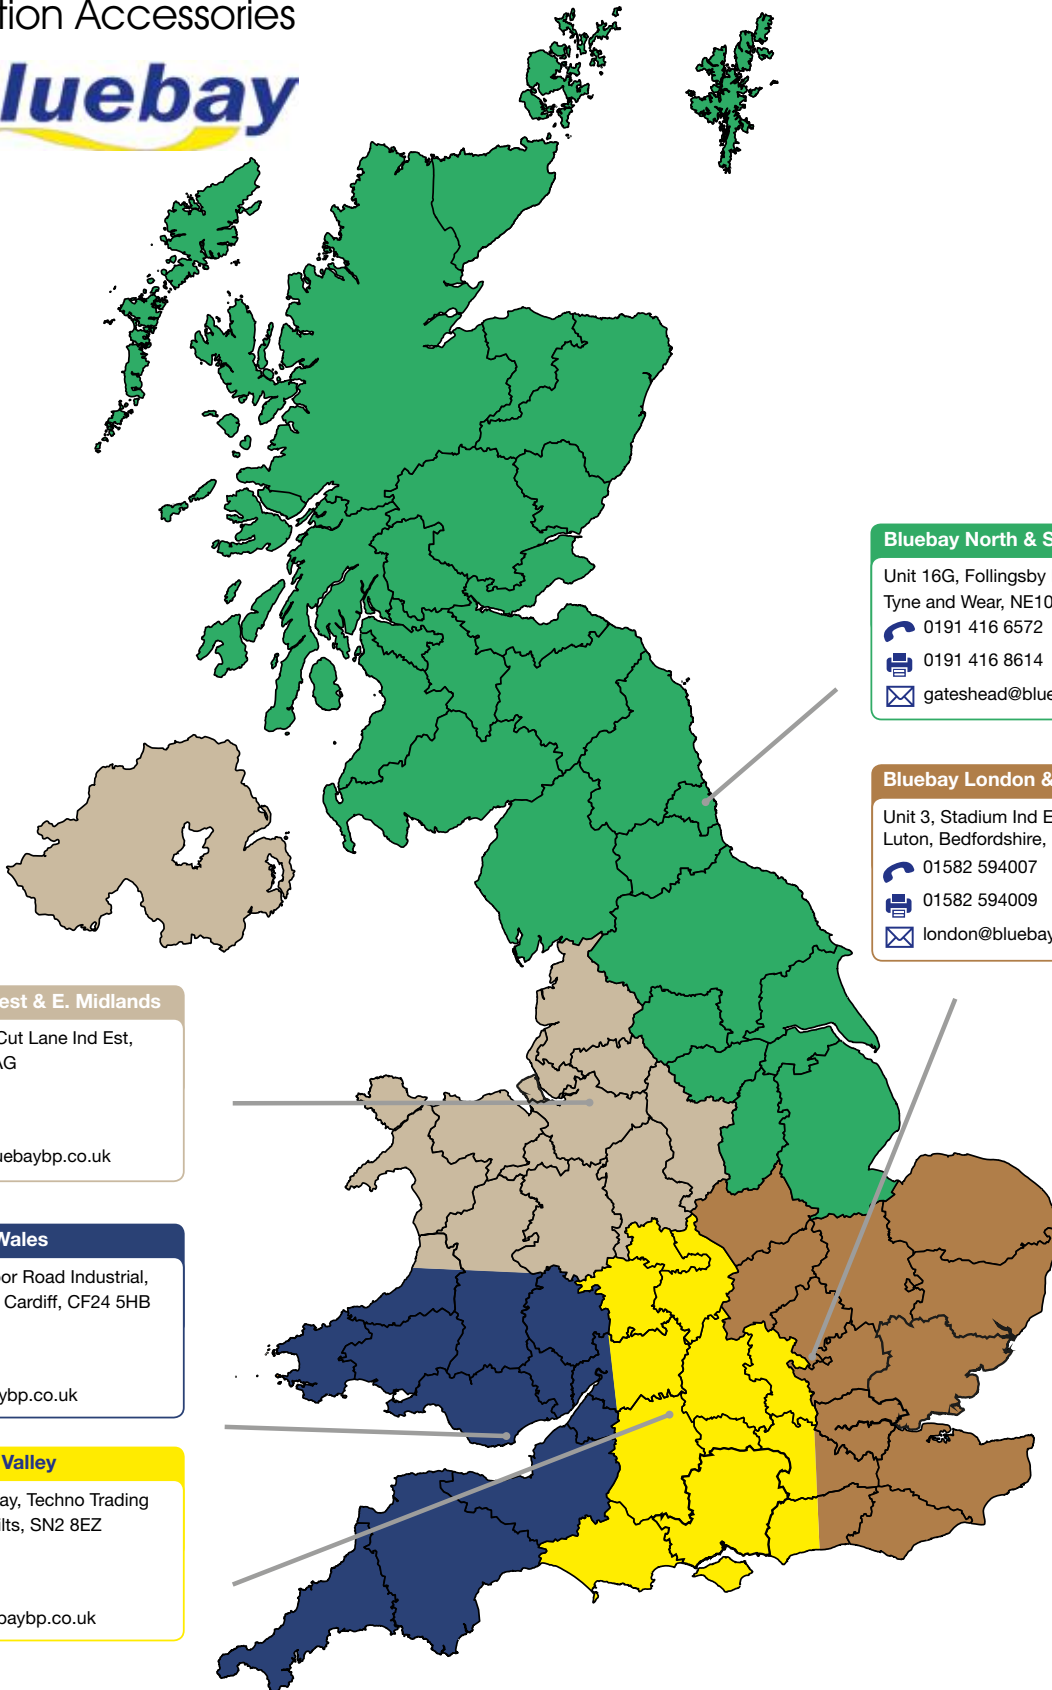

SOLSAFE - Environmental Product Range
SOLFORM - Formwork Treatment Products
SOLCURE - Concrete Surface Treatments
SOLREPAIR - Cementitious Repair Products
SOLBOND - Adhesive / Admixtures & Cleaning
SOLFIX - Resin Anchors
SOLINJECT - Injection Resins & Accessories
